BATTERED THEM DOWN

Tons of Steel Hurlled Against Santiago Forts.

ALL THEIR GUNS SILENCED.

Many Spaniards, Among Them Several Officers, Killed.

NOT AN AMERICAN WAS INJURED.

The Dons Fought Brave'y Until the Americans Got Too Numerous, Then the Cowardly Castilians Left Their Posts For Safety.

Santiago de Cuba, June 8. — The American fleet Monday morning engaged the Spanish batteries defending the entrance to the harbor of Santiago de Cuba, and after a three hours' bombardment silenced all the forts, destroyed several earthworks and rendered the Estrella and Carvo batteries, the two principal fortifications, useless.

The fleet formed in double column, six miles off Morro castle, at 6 o'clock in the morning, and steamed slowly 3,000 yards off shore, the Brooklyn leading, followed by the Marblehead, Texas and Massachusetts, and turned westward.

The second line, the New York leading, with the New Orleans, Yankee, Iowa and Oregon following, turned eastward. The Vixen and Suwanee were far out on the left flank watching the riflemen on shore. The Dolphin and Porter did similar duty on the right flank.

The line headed by the New York attacked the new earthworks near Morro castle. The Brooklyn column took up a station opposite the Estrella and Catalina batteries and the new earthworks along the shore.

The Spanish batteries remained silent. It is doubtful whether the Spaniards were able to determine the character of the movement owing to the dense fog and heavy rain.

A TORRENT OF SHELLS. Suddenly the Iowa fired a 12-inch shell, which struck the base of the Estrella battery and tore up the works. Instantly firing began from both Rear Admiral Sampson's and Commodore Schley's columns, and a torrent of shells from the ships fell upon the Spanish works.

The Spaniards replied promptly, but their artillery work was of a very poor quality and most of their shots went wide. Smoke settled around the ships in dense clouds, rendering accurate aiming difficult. There was no maneuvering of the fleet, the ships remaining at their original stations and firing steadily.

The squadrons were so close inshore that it was difficult for the American gunners to reach the batteries on the hilltops, but their firing was excellent.

Previous to the bombardment orders were issued to prevent firing on Morro castle, as the American admiral had been informed that Lieutenant Hobson and the other prisoners of the Merrimac are confined there. In spite of this, however, several stray shots damaged Morro castle somewhat.

Commodore Schley's line moved closer inshore, firing at short range. The Brooklyn and Texas caused wild havoc among the Spanish shore batteries, quickly silencing them.

While the larger ships were engaging the heavy batteries, the Suwanee and the Vixen closed with the small inshore battery opposite them, raining rapid-fire shots upon it and quickly placing the battery out of the fight.

DESTRUCTION WAS AWFUL. The Brooklyn closed to 800 yards, and then the destruction by her guns and those of the Marblehead and Texas was really awful. In a few minutes the woodwork of Estrella fort was burning and the battery was silenced, firing no more during the engagement. Eastward, the New York and New Orleans silenced the Carvo battery in quick order and then shelled the earthworks located higher up.

Later the practice was not so accurate, owing to the elevation of the guns. Many of the shells, however, landed and the Spanish gunners retired.

Shortly after 9 the firing ceased, the warships turning in order to permit the use of the port batteries. The firing then became a long reverberating crash of thunder and the shells raked the Spanish batteries with terrible effect. Fire broke out in the Catalina fort and silenced the Spanish guns.

The firing of the fleet continued until 10 o'clock when the Spanish fire ceased

entirely and Rear Admiral Sampson hoisted the "cease firing" signal.

After the fleet had retired the Spaniards returned to some of their guns and sent 12 shells after the fleet. But no one was injured.

Throughout the engagement no American ship was hit and no American was injured. If the Spaniards stuck to their guns, and all evidence is to the contrary, their loss must have been heavy.

The Way Is Now Clear.

Haitien, Haiti, June 8.—The American victory at Santiago de Cuba has cleared the way for the entrance of Admiral Sampson and the destruction of the Spanish fleet. As Santiago's land defenses are reported weak, it is likely that the city will yield to a vigorous attack. The Commander of the Reina Mercedes, second in command in the Spanish fleet under Cervera, was killed during the engagement. The combined American and insurgent forces are entrenched near Daiquiri with guns mounted in preparation for a further movement.

CERVERA'S REPORT.

It Shows That a Few of the Garlic Eaters Are Dead.

Madrid, June 8.—The following official dispatch has been received from Admiral Cervera:

"Six American vessels have bombarded the fortifications at Santiago and along the adjacent coast. Six were killed and 17 were wounded on board the Reina Mercedes; three officers were killed and an officer and 17 men were wounded among the troops.

"The Americans fired 1,500 shells of different caliber. The damage inflicted upon the batteries of La Socapa and Morro castle was unimportant. The barracks at Morro castle suffered great damage. The enemy had noticeable losses."

Silenced the Forts.

Washington, June 8.—The navy department has received a dispatch from Admiral Sampson announcing that between 7:30 and 10 o'clock Monday morning he bombarded the Santiago fortifications and entirely silenced them.

Cavalrymen For Philippines.

San Francisco, June 8.—Orders have been received at the presidio for the Fourth United States cavalry to make ready for service in the Philippines. The instructions given to Colonel Morris were to have six troops go to Manila within two weeks. He answered that the men were ready now. It was finally decided that the cavalrymen should take the horses to the number of 400. If the animals are transported without much loss and stand the climate in the islands, another regiment of cavalry will probably be sent on later.

At Chickamauga.

Chattanooga, June 8.—The very warm weather, which has been the only drawback to the work of the park is relieved by a steady breeze, and the men are getting through their drill work with much less trouble than usual. Regiment and company drills and in some regiments camp inspection are the order of the day. The main work of the regimental commanders outside of the regular routine during the next few weeks will be the work of recruiting each company to its full strength of 106 men.

Talk of a New Camp.

Washington, June 8.—Many rumors in regard to the future movements of the troops at Camp Alger continue to circulate. None of them can be confirmed, but it is thought possible that they may make another camp further down the river, about two miles south of Alexandria, Va. A board of officers has been appointed to look over the ground at that place.

Spain's Complaint.

Madrid, June 8.—Duke Almodovar de Rlo, minister of foreign affairs, has mailed to all the ambassadors of Spain a note and memorandum declaring that the United States has violated international law by capturing Spanish vessels before a declaration of war, by bombarding ports without notice, and by using the Spanish flag at Guanatanamo.

New York, June 8.—Captain Hanson of the steamer Alfred Dumois, which arrived here from Port Antonio, Jamaica, says that on June 1, off Cape Maysi, he saw an American warship towing another ship apparently disabled. The distance was so great that Captain Hanson could not make out the name of either vessel.

Heavy Sea Running.

Kingston, Jamaica, June 8.—It is reported here that Rear Admiral Sampson began the bombardment at the outer fortifications of Santiago de Cuba on Monday. A fierce storm has been sweeping over Jamaica and a heavy sea was running, causing pilots to refuse to take dispatch boats out of the Kingston harbor.

New York, June 8.—A special from St. Thomas, Danish West Indies, says that the French Transatlantic liner Versailles loaded 1,200 tons of coal from lighters in St. Thomas harbor, the purpose being to transfer the fuel to the Spanish collier Alicante, which is lying just beyond the 3-mile limit off the island.

Expected to Sail Soon.

Chicago, June 8.—A Tampa dispatch says the work of loading troops, horses, guns, ammunition, stores, equipment and medical supplies for the first great invasion of the Spanish West Indies is almost completed, and before many hours General Shafter's corps, the Fifth, is expected to sail away.

Natives Desert Spain.

London, June 8.—A dispatch from Manila referring to the fighting of May 30 and June 1 says the Spanish loss in killed, wounded and prisoners was heavy, but that the most serious feature of all for Spain is the defection of hundreds of native auxiliaries.

Urging Troops to Move.

Washington, June 8.—Signs are multiplying here in which men confirm even in the minds of the most cautious observers the stories of hurry orders for the troops at Tampa, which have been current for several days past. The necessary circumspection of the responsible members of the war administration prevents the exact nature of these orders from becoming known. That every effort is being made by all branches of the department to get the troops ready to move from Tampa at a very early day is beyond question.

The Buffalo Arrives.

Newport News, Va., June 8.—The United States cruiser Buffalo arrived at Old Point from Rio de Janeiro. The Buffalo was conveyed a part of the way from Rio Janeiro by the battleship Oregon and the gunboat Marietta. She left them a short time after her departure, however, and came through to Newport News without entering any port. She will receive a battery of five guns. Commander J. H. Hemphill will command the Buffalo when she receives her new equipment.

To Transfer Coal.

New York, June 8.—A special from St. Thomas, Danish West Indies, says that the French Transatlantic liner Versailles loaded 1,200 tons of coal from lighters in St. Thomas harbor, the purpose being to transfer the fuel to the Spanish collier Alicante, which is lying just beyond the 3-mile limit off the island.

Practically Reached an Agreement.

Washington, June 8.—The Republican members of the conference committee on the war revenue bill were in caucus for about four hours, and it is stated by members of the caucus that they practically reached an agreement on the most important items of difference between the two houses. They relate to the coinage of the silver dollar, the form of the bond provision and the amount of the bonds, the inheritance tax, the duty on tea, etc.

Probable Junction With Insurgents.

Santiago de Cuba, June 8.—The bombardment which began at 7:45 a. m. Monday and continued until 10:30, was resumed again for a short time about midnight. It was then believed that the Americans had effected a junction with the insurgents near Daiquiri, some distance east of Aguadores and near the railway line to Santiago.

To Return Ohio Flags.

Washington, June 8.—The house has passed a bill directing the secretary of war to return to the state of Ohio the flags carried in the civil war by the Twenty-first, Fifty-eighth and Sixtieth regiments of Ohio Infantry.

Kentuckians Arrive.

Chickamauga, June 8.—Governor Bradley with a large party of prominent Kentuckians arrived here on a special train. The party will remain in the park several days.

The Harvard Is Safe.

Newport News, Va., June 8.—The United States scout ship Harvard has arrived at Old Point. She will come to Newport News for coal.

Said to Have Been Repulsed.

Havana, June 8.—The American attempt to land at Aguadores is said to have been repulsed.

Boats Tied Up.

Milwaukee, June 8.—About 200 coal heavers employed along the docks in Milwaukee have gone on a strike for an advance of 1 cent per ton for unloading coal. As a result 12 boats laden with coal are tied up.

Seven Bodies Recovered.

Victoria, B. C., June 8.—A special from Alberni says that the bodies of seven white men, supposed to have been victims of the Jane Gray disaster, have been picked up on the beach near the Kuyukot reservation by Indians, while a sack of clothing with an Italian name on it was washed ashore, not far from Kuyukot.

Insurgent Forces Also Attacked.

Cape Haitien, Haiti, June 8.—It is further reported here that the Cuban forces attacked Santiago de Cuba by land during the American bombardment, inflicting heavy losses on the garrison.

ELECTION IN OREGON.

Republicans Carry the State For Governor and Legislature.

Portland, Or., June 8.—Latest returns from elections show large Republican gains in every county of the state over 1896.

Partial returns from 25 out of the 32 counties of the state show that Geer (R.), for governor, will have about 10,000 plurality.

Moody (R.), for congress in the Second district, will have a plurality approaching 5,000. Tongue (R.) is re-elected to congress from the First district by more than 2,000 plurality.

The legislature is overwhelmingly Republican, being made up as follows: Senate, Republicans 23, opposition 7; house, Republicans 44, opposition 16. The figures may be slightly changed by later returns.

Mason (R.) is elected mayor of Portland by 1,000 plurality.

Married Her Soldier.

Marion, Ind., June 8.—Frank Robinson of the One Hundred and Fifty-eighth Indiana was married in Chattanooga Monday night to Miss Meta Knox, a pretty young society girl of Marion. She went there with her father, who urged the marriage. They are members of well known Indiana families and were lovers from childhood. This makes five Indiana soldiers who have been married since going into camp at Indianapolis. It is reported that two or three other marriages will occur among the Hoosier soldiers soon.

Sandbagged and Robbed.

Huntington, Ind., June 8.—Otto Newlove, a saloon keeper, drew \$415 from a bank with which to pay for another year's license. He intended to keep the money over night. As he was locking up his saloon he was sandbagged and the money was taken from him. Newlove was so badly injured by a blow on the head that his recovery is doubtful.

Potomac Poisoning.

Jeffersonville, Ind., June 8.—Miss Hunt, Mrs. Payne and son, Miss Whitesides and Miss Knable, boarding with Mrs. Hunt, at Borden, were seized with symptoms of acute poisoning on Sunday last. The attending physician pronounced it ptomaine poisoning. All the victims continue in an alarming condition.

Gas Explodes With Terrible Force.

Ft. Wayne, Ind., June 8.—George McGulre was fatally burned, and Ed Redding and George Moore were badly injured by an explosion of gas in the new court house building. The men were attempting to light fires under the boilers, and the explosion resulted from an over accumulation of gas.

Six Years' Tax Suit.

Linton, Ky., June 8.—The auditor's agent here brought suit for six years' franchise tax in behalf of the state and county against the national banks of Lexington, holding \$4,500,000 of capital stock. The suit is the result of a decision on franchise tax rendered in Cincinnati recently.

Suing For a Husband's Loss.

Lafayette, Ind., June 8.—Mrs. Margaret Spencer has brought suit against C. C. Spencer, a well-known attorney, demanding \$10,000 damages for the alleged alienation of her husband's affections. The principals are well known.

One Strike Settled.

Alexandria, Ind., June 8.—The plate glass strike was settled and the men went back to work at the old wages. There is general rejoicing over the early and unexpected settlement.

Killed His Baby Sister.

Lincoln City, Ind., June 8.—While Claude Main, 6 years old, son of Joseph Main, was playing with a small rifle, he accidentally shot and killed his sister Beatrice, 3 years old.

A Good Harvest Probable.

Jeffersonville, Ind., June 8.—Wheat harvest will begin in a few days throughout southern Indiana. The prospect is that the farmers will gather the finest crop in many years.

Killed by Lightning.

South Bend, Ind., June 8.—B. F. Duncan, lumber inspector at the Studebaker yards, was killed by lightning while using a telephone, the lightning coming over the wires.

Jealous Husband Uses a Razor.

Vanceburg, Ky., June 8.—Word was received from Orangeburg that Charles Guffey had cut his wife's throat with a razor. Cause, jealousy. She will die.

Drowned in Wildcat.

Lafayette, Ind., June 8.—Theodore Dohm, 22, while bathing in Wildcat, went beyond his depth and was drowned.

Marietta, O., June 8.—On the Baltimore and Ohio railroad, six miles east of Parkersburg, a freight train was derailed and a passenger train ran into it. John Henry, engineer, was killed.

FIGHT OF MANILLA BAY

Graphically Described by Those Who Participated.

SPANIARDS HAD BEST SHOW.

Fighting Volume of Guns Twice as Great as Americans.

DONS COULD NOT HANDLE GUNS.

At One Time It Looked as Though the American Fleet Must Be Destroyed, but at That Moment the Spanish Ships Began to Go Down.

San Francisco, June 8.—Among the passengers who arrived on the Belgic from Hongkong were four men who participated in the fight of Manila bay. They are Paymaster Loud of the dispatch boat McCulloch, Dr. Charles P. Kindelberger, surgeon of the Olympia; Ralph Phelps, secretary to the captain of the McCulloch, and J. C. Evans, gunner of the Boston.

Dr. Kindelberger was on the Olympia through it all. On the first assault the flagship took the lead, the other vessels following in her wake at four ship's lengths.

The Spanish fleet was approached by laps, each turn bringing the contestants nearer together. By this plan, the American vessels frequently poured broadsides into the enemy, but were themselves more exposed to fire.

At one time the smoke became so dense that it was necessary to draw aside, allowing the cloud to lift. The vessels were examined and it was found they had sustained no damage.

During the first fight two torpedo boats moved out to attack the fleet. They were allowed to come within 300 yards when a fusillade from the Olympia sent one to the bottom with all on board and riddled the other. The second boat was later found turned upon the beach covered with blood.

In the second fight the Baltimore was sent to silence the fort at Cavite. She plunged into a cloud of smoke and opened all her batteries on the fortifications. In a few minutes a shell struck in the ammunition and the fort blew up with a deafening roar.

In taking possession of the land forts several hundred wounded Spaniards fell into the hands of the Americans and nearly 200 dead were accounted for on the spot. Holes in which numbers had been hastily buried were found.

The Spanish loss footed up 400 killed, 600 wounded and a property loss of anywhere from \$2,000,000 to \$10,000,000.

Experts have figured out that the fighting volume of the guns of the respective sides of the battle was three for the Americans against seven for the Spanish. It is clear then that the superiority was in the ships and the men themselves, the men, having the experience and nerve.

Paymaster Loud, who was on the McCulloch during the battle, said:

"At one time I really thought we would be beaten. This was after the fire had been kept up an hour. It looked like every gun on the Spanish ships had turned loose on us altogether and the shore line was a veritable blaze of fire from the batteries.

"Our salvation was in the bad marksmanship of the Spaniards. They handled their pieces like boys. Nearly all of their shots went wide of the mark. Nearly all our ships were struck by both large and small shot but no damage of any consequence was done.

"We left Manila on the 6th, at that time Commodore Dewey was in the possession of the shore forts and arsenal. Considerable ammunition and some fair guns were captured. Manila on the opposite side of the bay had not been taken and it was not the intention of Dewey to do so at that time.

"When the troops arrive from San Francisco Commodore Dewey will demand the immediate surrender of the city and the troops stationed there. If a refusal is given fire will at once be opened from the warships and forcible possession will be taken at once."

One hundred and fifty miles out from Honolulu the Belgic sighted the transport steamers Australia, Peking and City of Sydney, which vessels signalled that all were well on board.

The Judge Embarrassed.

Washington, June 8.—The board of directors of the Arkell Publishing company and of the Judge Publishing company of New York have decided to go into voluntary liquidation, and have applied for temporary receivers. The proceedings will not interfere with the regular issue of the Arkell publications.

WEDNESDAY, JUNE 8, 1898.

WASHINGTON, June 7.—For Tennessee and Kentucky—Showers and thunderstorms; southerly winds.

This is proving a memorable year for Uncle Sam. Our Navy has won the admiration of the world by its brilliant victory at Manila, and by Lieutenant Hobson's daring exploit at Santiago. In the business world our manufacturers are making in the fiscal year which closes with this month their greatest record in competing for the markets of the world. Not only will the exports of manufactured articles for the fiscal year exceed those of any previous year, but for the first time in the history of the country they will exceed the imports of manufactures. In the ten months of the fiscal year, whose detailed record the Bureau of Statistics has just completed, the exports of manufactures exceed by over \$40,000,000 the value of the manufactures imported, and it is probable that for the full year's record this excess will reach \$50,000,000. In no preceding year in the history of the country have the exports of manufactures equaled in value the imports of manufactured articles.

Must Pay Their Poll Tax.

The cases against some of the active firemen to recover poll tax due the city were heard in the Police Court Tuesday. They claimed they were exempt from poll tax, because they were volunteer firemen without pay, but the records of Council show that the companies have been paid \$400 a year "salary." Judge Wadsworth decides that they must pay the tax.

These with other delinquent taxes were placed in Chief of Police Donovan's hands some weeks ago by Council with instructions to collect them anyway he could, and he is carrying out Council's instructions.

Most of the firemen have paid their poll tax right along. Only a few are delinquent.

What Are Medical Societies For?

[New York Medical News, May 11th.]
It has been universally accepted that there is no royal road to knowledge; yet a plan of manufacture and commerce in this commodity is now being agitated by certain enthusiasts in the medical profession of this country which claims to negative such acceptance. This consists of an organization to supply medical societies in different parts of the country with "talent," who shall come unto them laden with wisdom which shall be imparted and extracted, even to the complete satiety of those who are hungering and thirsting for such ready-made knowledge. The fathers of this scheme flatter themselves that these occasions will be found so invaluable that every town and county medical society will insist upon having a regular monthly supply. The question of supply is an easy matter, however, as it has been hinted that all the specialists in the large cities will welcome this opportunity to exhibit their wares first hand to the untracked territory from which consultations spring, and that they will hasten to cast their bread upon waters that it may return to them a hundred fold.

We are assured by the press agents of this company that the plan has been tried on various medical societies whose membership is made up of country practitioners, and that it has been found a flattering success.

What are medical societies for? Are they for the glorification and lionizing of the individual, or are they arenas to which may be brought the difficult problems in diagnosis, the intricate questions of pathology, the vagaries of therapeutic results, in order that they may be discussed and elucidated by the clinical experiences of many men studying the same diseases amid the same environments and under similar conditions? No one can honestly say, after having listened to some great star who has indulged in glittering generalities and skipped lightly over a vast subject, within the hour, let us say, that he goes home better fitted to cope with the exigencies of his daily work. On the contrary, it is extremely probable that if a vote were taken to determine the influence of the ordinary medical meeting of county and State societies in maintaining professional tone and keeping up the character of medical work, the result would be no uncertain answer in favor of the present system—without stars.

THE CROP OUTLOOK.

Rain Badly Needed, Especially in Eastern Section of the State—Weekly Bulletin of the Weather Bureau.

Weather conditions have been fairly favorable. Good showers occurred in the western section on May 29th and 30th; also in the central section, but not so general or copious; in the eastern section there was very little or no rain. After May 30th there was no rain; with days of unbroken sunshine and high temperature. Rain is now badly needed in the eastern section; and while there are but few localities in the central section suffering, rain now would be timely, and of much advantage to all crops. Considering these partially adverse conditions crops are making good progress. Farm work is well advanced, except tobacco transplanting, which has been delayed in central and eastern sections. Corn and gardens have been thoroughly cultivated. Hay cutting is about to begin and some wheat is nearly ready for harvest.

Western Section.—Copious rains on May 29th and 30th retarded planting of late corn in bottom lands, but with this exception the general effects of weather on crops have been most propitious. With plenty of sunshine and warm weather all soil products have advanced rapidly during this week. Farmers have taken advantage of these favorable conditions to set out tobacco plants, only a small portion of which work now remains to be done. The only complaint arises from the damage done by cut worms. The stand of the tobacco plant is exceptionally good and its growth is now almost in advance of the season. Corn is generally in splendid condition. Wheat is ripening very rapidly, and although there is some complaint of rust, the crop is everywhere in excellent condition. Harvesting will begin during the coming week. Oats are heading but are not especially promising.

Central Section.—Weather conditions have not been favorable for all farming interests. Rain is needed generally, though in only a comparatively few localities are crops actually suffering. The dry weather has enabled farmers to make rapid progress in the work of crop cultivation; it has been favorable to the ripening of wheat, but detrimental to tobacco beds and newly transplanted tobacco. The wheat crop is maturing rapidly and is generally nearly ready for reaping. Harvest will begin by June 10. The promising outlook for the crop is still maintained. Oats are in good condition. Rye is doing well. Meadows and grasses are mostly in fair condition. Corn is in very good condition generally. Tobacco transplanting progressed rapidly until the ground became too dry, and the greater part of the work was completed. The succeeding dry weather, though, has injured considerable of the latest set plants, and some will have to be reset.

Eastern Section.—Warm weather has continued, with abundant sunshine without rain. All vegetation has grown rapidly, the only complaint being dry weather, which has not continued long enough yet to cause any serious delay in the progress of crops. Early planted corn is an excellent stand, growing rapidly and is being worked; the late planted is not doing well. Wheat continues in very good condition, but needs rain. Oats are doing very well generally. The dry weather has interfered quite seriously with tobacco setting; some farmers have used machines, others have made season, but progress has been slow, and many plants have died; the plants are now large and must be set soon. Potatoes need rain. Grasses and meadows are showing effects of dry weather.

GEORGE E. HUNT,
Section Director, Louisville.
Electric Park.

A very nice crowd was out last night and enjoyed the real show, where the real people go. Frye and Allen are very clever as the "Policeman and the Flirt," Phillips and Naynon and their trained birds do a beautiful act; it is quite a novelty for Maysville or any other city to see an act of that nature as it is the only one of its kind in America. Miss Ada Wilkes is as small as ever and still retains her popularity with the patrons of Electric Park. Another free show to-night. Go out.

A Native of Mason.

The only colored Colonel in the U. S. army at present is a native of this county. His name is Young, and he was born a slave, his mother being the property of Mrs. Willett, near Helena, at the time. He is related to the Bruens, of Mayslick, and has quite a number of other relatives in the county.

Colonel Young is a graduate of West Point. His mother now lives at Ripley.

PLAID PIQUE.

Ideal for shirt waists, chic and novel. It wears long, launders faultlessly, colors are unfading. If you haven't your shirt waist supply be sure to give the Plaid Pique a place; if you have, it's not complete without one of these stylish garments. \$1.25 buys a pattern. The made-up shirt waist sells for \$3, so even if you're not your own seamstress you see what you can save.

D. HUNT & SON.

THEIR SAVIOR.

That is What America's Wheat Supply Would be to England in Time of War.

NEW YORK, June 6.—One of the questions asked by Englishmen since Mr. Chamberlain's unexpected advocacy of an Anglo-American alliance is a practical one, says the London correspondent of the Tribune.

"What have the Americans," they inquire, "to offer us in return for our moral support and naval prestige? We can understand how much they have to gain from an alliance with a power having the strongest fleet afloat, especially if they are bent upon changing their foreign policy and taking an active part in East Indian as well as West Indian affairs. But an alliance must be based upon equivalent advantages. What compensation will there be for England in return for the tremendous power of her navy?"

These are questions which are constantly put to Americans living in London.

The best reply which can be made to questions of this kind is that an alliance with America will be the strongest safeguard against the failure of England's food supply in time of war. The statisticians have shown that the wheat harvest of the United Kingdom is only equal to the requirements of fourteen weeks, and during the remaining thirty-eight weeks an imported supply is the only resource. During the greater part of the year there is never more than six weeks' supply of wheat in England. If importations of food were cut off or partly interrupted, the price of bread would rise and a large portion of the population would be exposed to starvation. This is the real source of danger in time of war, as every sober-minded Englishman knows.

Young Men's Christian Association.
At the men's rally Sunday Mr. Childs was the leader and speaker and chose the subject "Our Temptations," making some helpful remarks on the same. Prof. Berry and Prof. Gabby, Mr. George Frank and Mr. J. T. Kackley also spoke on the subject, the latter gentleman urging the young men to renew their subscriptions. There are still a great number who have not done so. If all will renew, the work of the association can be carried on without debt.

Miss Mae Burgess played two charming mandolin solos with great skill, accompanied by Miss Lida Berry. Cool lemonade was served during the meeting.

A. H. LAMB, Secretary.

Important Suits Brought.

LEXINGTON, Ky., June 6.—Suits in behalf of the State and county for back taxes upon franchisees for all the years since 1892 were brought to-day against every bank in the city of Lexington and the Security Trust and Safety Vault Company. The total amount sued upon aggregates \$20,000,000. The suits are brought on account of the recent decision of the Court of Appeals under the statutory provision for the recovery of delinquent taxes. The city may also bring suits, which would increase the assessed amount \$20,000,000.

Yellow Jaundice Cured.

Suffering humanity should be supplied with every means possible for its relief. It is with pleasure we publish the following: "This is to certify that I was a terrible sufferer from yellow jaundice for over six months, and was treated by some of the best physicians in our city and all to no avail. Dr. Bell, our druggist, recommended Electric Bitters; and after taking two bottles, I was entirely cured. I now take great pleasure in recommending them to any person suffering from this terrible malady. I am gratefully yours, M. A. Hogarty, Lexington, Ky. Sold by J. Jas. Wood, druggist."

FIRING!

HAVE YOU taken advantage of our closing-out sale? You only have till June 1st to do so and lost opportunities can't be recalled. Our regular bulletin No. 2 is a beauty for you.

THE LEADING GROCER.

PERSONAL.

Judge Cole left this morning for Carter County on legal business.

Dr. Pickett and daughter Miss Rosa visited at Lexington this week.

Miss Mattie Irvine, of Washington, is visiting friends at Rectorville.

Mrs. J. M. Hunter, of Louisville, will spend the summer with her mother, Mrs. H. C. Morgan.

Mrs. Frank Beckett and little daughters, of New Orleans, are the guests of Mrs. Martha Beckett, of the Fifth ward.

Mr. Edward Q. Craine, the Batavia (O.) attorney, has been in Maysville this week. He is one of the lawyers in the Riggs case.

Miss Chapman, who taught in the family of Mr. Jas. Claybrooke of the county, has returned to her home at Covington, Virginia.

Mr. Ed. Alexander, the gentlemanly salesman at P. J. Murphy's jewelry establishment, left last night for Gallipolis, to be gone about a week.

Dr. and Mrs. Wheeler and Mrs. F. Cecil Johns, of Winchester, with their interesting children, have been paying a delightful visit at "La Belle View." Mr. and Mrs. James S. Pogue's country home, Mrs. Pogue's little nephew, Lindsay Pogue Johns, evinces his patriotism by the U. S. regimentals he wears.

The June term of the Bourbon Circuit Court will begin next Monday with the largest docket known for seven or eight years. The docket will comprise 320 old equity cases, 56 old ordinary, 60 appearances and 112 Commonwealth cases.

The Bee Hive!

A Rare Carpet Chance.

All our Axminster and Moquette Carpets, every one of this season's designs, and that have been selling at \$1.15 and \$1.25, reduced to 85 cents a yard. To any one who has seen our great Carpet stock, further comment is unnecessary. We feel convinced that discriminate and shrewd carpet buyers will soon appreciate that this is a "Carpet chance" extraordinary. Remember your choice of our Axminsters and Moquettes 85c. a yard.

75 Cent Shirt Waists at 19 Cents.

We carried over a few dozen 75c. Shirt waists from last season. They're in the way—taking up room we need for new goods. To dispose of them quickly we will dispose of them at the ridiculously low price of 19c. It's almost like giving 'em away. At this price they'll not stay long, so you'd better come soon.

A Startling Sale of Ladies' Sailors!

These are the best creations of our own factory. Under ordinary circumstances our price to the consumer is about what other dealers pay. But for this week prices will fall to the very bottom. All of our 50c. "Sailors," the kind you're paying 75c. for elsewhere, reduced to 25c., and our usual 75c. kind, of regular \$1 value, reduced to 49c. Only for this week, and a limited quantity at that.

More Than a Hundred Different Patterns of

Washable Shirt Waist Gingham,

being sold by others at 10c., are on our counters at 8½c. a yard. You'll find no such variety of Gingham at the same price in any other store in the vicinity.

ROW AMONG KENTUCKIANS.

Appointment of Senator Deboe's Candidate For Assistant District Attorney Revoked at Pugh's Request.

WASHINGTON, June 6.—There is blood on the moon in the Kentucky camp.

Last Saturday, at the instance of Senator Deboe, John H. Wilson was appointed Assistant District Attorney for the State.

To-day, at the instance of Congressman Pugh, the appointment was revoked.

Pugh had a candidate in the person of J. B. Wilhoit, Carter County, but Senator Deboe was led to believe that Wilhoit had been abandoned, and was assured, he says, by Solicitor of Internal Revenue Thomas, who is Pugh's father-in-law, that the appointment of Wilson would be satisfactory.

Upon this lie, on Saturday, called at the Attorney General's office. Mr. Griggs was absent, but Solicitor General Richards, who was acting in his stead, promptly appointed Wilson.

To-day Pugh called upon Attorney General Griggs armed with a request from the President that no action be taken until July 1. This caused a reversal of Saturday's proceedings, and there is no more wrathful man in Washington to-night than Senator Deboe.

CIRCUIT COURT.

The Riggs and Green Murder Cases Continued Until Next Term—List of Petit Jurors.

The petit jurors returned Tuesday are as follows: J. J. McMillan, William McGee, W. W. Gault, W. Hutchison, Frank Laytham, Ben Coburn, P. P. Parker, Thomas Forman, Charles Knight, S. N. Robinson, J. P. Marshall, Alex. Duke, R. L. Fox, Henry Dieterich, George C. Goggin, T. B. Chandler, John Kirk, Charles Peers, John T. Parker, R. J. Gaither, Thomas Worthington, Dennis Coughlin, J. B. Furlong and C. S. Anderson.

In the case of Reuben Stockdale for injuring the property of another the jury failed to agree, and the case was then continued.

The cases against Amos Riggs and Elijah Green, both charged with murder, were continued till next term on motion of Commonwealth. A similar order was made in the case against Lemuel Green, indicted for grand larceny, and against Sellman Rhodes, charged with seduction.

Charles Warner and Gus Thomas, colored, charged with robbery, are on trial.

Dr. T. C. MARTIN, of Cleveland, son of the late Dr. G. W. Martin of this city, is programmed for a paper on diseases of children at the meeting of the American Medical Association in Denver this week.

GEORGE W. CROWELL has sold and conveyed the east half of a double frame house on south side of Third street, Fifth ward, to James V. Hoops for \$500. He also sold the west half of same property to Henry A. Miller for \$500.

THE eastbound F. F. V. was fifty minutes late arriving here Tuesday. The delay was caused by the "buckling" of the track at a point near Dover, as a result of the heat. The train had to wait until the rails were re-adjusted.

JEWELL & PATTERSON, the horsemen of Lexington, who were at Daulton & Bros.' stable Tuesday, purchased eight head of horses. Mr. Patterson is in Georgetown, Ohio, to-day, and the horses purchased there will be shipped here and forwarded to Lexington.

NEAR Mt. Gilead Saturday night Chas. Guffey, colored, attempted to cut his wife's throat with a razor. She is much larger than he, and saved her life after a desperate struggle. Her hands were badly cut, and she was wounded on the throat, but not seriously.

DR. AND MRS. A. N. ELLIS, of Ellis Landing, returned this morning from Concord where they were in attendance last evening at the wedding of Miss Lou Ellis, the second daughter of Jeremiah Ellis, of Pleasant Bottom, to Mr. Gus Kirchner, of Manchester. After the ceremony the couple left on the steamer Virginia for Pittsburg.

High School Commencement.

The commencement exercises of the Maysville High School will be held in the Baptist Church to-morrow evening at 8 o'clock. The doors will be opened at 7:30. It is hoped that a large crowd will be present and thus attest the interest which our citizens feel in our public school system.

The evening's program will consist of essays and orations by the class and music furnished by the "The Cincinnati Quartet." The quartet, which comes highly recommended, consists of the following gentlemen: Albert H. Morehead, tenor; Samuel Ash, tenor; J. C. Donovan, Jr., bass; Llewellyn C. Hall, bass.

Tickets will be on sale at all the drug stores. Admission 50 cents.

REFUS WELLS and Miss Bertie Paul, of Sardis, were married Tuesday by Judge Newell.

We Have Always Contended

For and maintain it is a fact that there is a higher order of intelligence evinced in the buying of general merchandise by the people in this and nearby counties than most anywhere else. You will find few persons who do their shopping in Maysville who believe that \$4.98 will buy a \$12 Suit of Clothes. Our many years of experience goes to show that people want good goods for which they are willing to pay a fair price. Our 1898 Spring business proves that the higher the class of goods the readier they sell. Our beautiful

Black and Blue Serge

SUITS

(we sell them at \$12) have bounded into wonderfully great favor with our good dressers. We have a beautiful line of them.

The Weather is Getting Right for our Crash Suits

Our Crash Suits are right for the weather. Prices range in this line from \$2.50 to \$7. They are worth your inspection. On Saturday we will open our Children's and Boys' Crash Suits.

Our Shoe Department is now complete in

Summer Footwear!

We handle only the best quality of goods in this line. Our fine Patent Leather Shoes, which a few days since were closed out, are replenished with a shipment of the very latest and correct styles.

That the people of Maysville appreciate a good thing is evidenced by the attendance. An audience of no mean proportions again witnessed the really meritorious entertainment last night. Ben Turpin, "the man with the locomotive feet," is certainly aptly named. The part given by Maxine, the elastic marvel, is well worth the price of admission. Grace Gilmore in patriotic songs was well received. Vinell, Raymond, in fact all were given their due meed of appreciation.

A MAN'S health is the rope by which he climbs to success. If he can keep his health, he will go on to success. Yet his health is the very thing he neglects more than anything else. It is easier to keep health than it is to regain it. When a man feels himself running down, when he realizes a loss of vitality and energy, he must call a halt. The strands of his rope are parting rapidly. Dr. Pierce's Golden Medical Discovery has helped thousands of men in just this condition. It makes health. It makes pure, rich blood, it forces out impurities and kills germs. It doesn't make any difference what name you call your trouble—gynecopia—kidney disease—rheumatism—consumption—skin disease, the "Golden Medical Discovery" will cure it absolutely. None of these diseases can retain hold on the body when it is full of rich, pure blood.

Advertised Letters.

The following is a list of letters remaining in the postoffice at Maysville, Mason County, Ky., for the week ending Tuesday, June 7th, 1898:

First, Miss Annie Johnston, Willie M. Moore, Mrs. Francis Riggs, Hannah I. Stuart, Mrs. A. C. Upton, Louis Watts Steel and Iron Syndicate.

Persons calling for any of the above will please say advertised.

CLARENCE MATHEWS, P. M.

Discovered by a Woman.

Another great discovery has been made, and that too, by a lady in this country. "Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly, and could not sleep. She finally discovered a way to recovery, by purchasing of us a bottle of Dr. King's New Discovery for consumption, and was so much relieved on taking first dose, that she slept all night; and with two bottles, has been absolutely cured. Her name is Mrs. Luther Lutz. Thus writes W. C. Hamrick & Co., of Shelby, N. C. Trial bottles free at J. James Wood's drug store. Regular size 50c. and \$1. Every bottle guaranteed.

SHANNON.

Corn is looking well in this neighborhood, considering the drought.
 The wheat and meadows are also showing the effects of the drought.

Some tobacco has been set with the aid of settlers and seasoners, but the bulk of the crop remains to be put out. Unless it rains soon, the most that is set out will die and the plants in the bed will be ruined.

Children's Day was observed Sunday evening at 8 o'clock at Shannon. The church was handsomely decorated and a large audience in attendance. Miss Anna Evans, of Mt. Vernon, Ohio, deserves much credit for her untiring efforts in decorating the building and training the little children; the entire program was faultless. Following was the program:

Music—"Worthy is the Lamb"—Choir.
 Recitation—"Look to the Future"—Jennie Newton Watson.
 Recitation—"Two Little Kittens"—Duke Jefferson.
 Music—"Scatter Seeds of Kindness"—Ellen Jones.
 Vocal Duet—"Miss Carrie Grigsby and Miss Cora Bratton."
 Recitation—"The Flower Girls"—Bettie Rees, Misses Watson and Lela Gault.
 Recitation—"The Little Bird Tells"—Alice Jefferson.
 Recitation—"Trust in God"—Anna Glenn Arthur.
 Song—"An Open Bible for the World"—Choir.
 Recitation—"How to Help Mama"—Angie Watson.
 Recitation—"Which Will You Take?"—Louise Hill.
 Recitation—"The Kingdom Come"—Anna Jefferson.
 Recitation—"A Prayer"—Hazel Stiles.
 Song—"Beautiful Land"—Mrs. Robert Watson.
 Recitation—"The Name in the Land"—Edith Wood.
 Recitation—"If I Knew a Box"—Cecilia Arthur.
 Recitation—"Gossip Town"—Maggie Wood.
 Recitation—"Is It You?"—Alice Watson.
 Recitation—"Little Beginnings"—L. Arthur.
 Song—"The Beggar"—Edith Wood.
 Recitation—"The Bee"—Bettie Rees.
 Recitation—"The Tides"—Alice Watson.
 Recitation—"The Moneyless Man"—C. Arthur.
 Answer—Miss Anna Evans.
 Recitation—"Take Up the Collection"—Duke Hill.
 Song—"Good Night"—Choir.
 Benediction—Rev. Daniel Robertson.

The choir rendered some sweet selections, the best singers from Sardis, Shannon and Mayslick being selected. It is to be hoped Miss Evans will be in Kentucky on next Children's Day.

Commencement.

Exercises should remind you that many dear school friends must part. A good photograph at this time of year is most desirable. We will please you.

CADY'S ART STUDIO.

Another Spanish victory! Spain shouts. Will somebody tell him when he is licked? He don't realize that he is badly "done up" already. You may not realize that your linen is badly "done up," either, until you compare it with some of the exquisite work done at this laundry. Our laundry work is simply perfect, and can't be improved on. A test is all we need to make you a patron always.
